

information in the present paper due to bad hookups, misuse of the battery or faulty mechanical workmanship.

BASIC CONCEPTS

For some time man has been looking for different ways to generate electricity. He has used water power, steam power, nuclear power and solar power. Recent papers written by Tom Bearden make a free energy generator possible. Tom Bearden, rather than patent his devices, chose to share them with people who had open ears. I myself have had numerous conversations with Tom Bearden. I found Tom to be one of the most reasonable men I have ever dealt with in this energy field. Most others would tell you stories of great machines they had, but would never present the truth with circuit diagrams or a look at the machine in question. Tom, on the other hand, clearly presents his ideas and discloses the concepts by means of which they work.

The facts I am about to present to you about free energy were never put into textbooks, only portions were. The textbooks have grounded people in conventional theory and made things very complicated. What I am about to explain is very simple; anyone can understand this theory and anyone who understands what he is doing can build this device.

I have been grounded in conventional theory for some eleven years. I have always tried to study the simplicity of electrical circuits, but my mind wouldn't allow
